Angels: Uriel, the angel of justice, light and wisdom.

The archangel Uriel helps anyone who wishes to improve himself and his life, and gives him an opportunity for a new beginning.

According to the Kabbalah, angels are spiritual forces, communication lines between the material world and the spiritual world. Each angel has one purpose.

The angels, in the scripts of the AR"l, are created by our thoughts and actions, for better and for worse.

Each angel connects us to a certain frequency: it is up to us to choose if it is a positive or a negative one.
