

MARTA MORRISON, CHILE

Title: "Ayun" Materials: Silver and cotton, Price: € 440,00

- Necklace: Ayun

Ayun means love in Mapudungun , and the necklace was inspired by the greatest masterpiece that God created: love. For Mapuches nature is their inspiration and their philosophy is based on the love for nature, that's why I work with natural materials; I soften the metal with the smoothness of vegetable stalks.

My work is based on the work of nine people, craftswomen and silversmiths who express their love and dreams in all the pieces they created. Ayun represents love, love of the earth, of people, and of course, love of God.
